

## **Jiangsu Sunyu Information Technology Co., Ltd**

Sunyu, one of the most excellent IP and globalization services providers in the world, was founded in 1996 and is committed to providing clients with trusted IP solutions.

Initially, we focused on patent translation and gradually transformed into IP outsourcing services. We now specialize in patent search and analysis, patent translation, patent transaction, patent early warning, one-stop European patent validation, software development, and so on. We have 500 employees approximately with more than 20 years of experience in the IP services industry, aiming to develop our global IP services.

Sunyu has extensive long-term business relationships with numerous multinational high-tech enterprises and well-known law firms. We are also honored to be one of the members in the China Intellectual Property Development Alliance and "The Belt and Road Initiative" Professional Committee of Intellectual Property Service.

In addition, Sunyu is currently in charge of the operation of Sunyu Zijin · Nanjing IP Globalization Service Platform, aiming to build a benchmark of IP public services. The platform was established in December 2018 based in Nanjing, which integrates global resources, helps enterprises to protect their rights overseas, provides patent early warning service, promotes global risk immunization, and delivers the latest global IP news.
